Arm Corstone-310

Arm Virtual Hardware (AVH) provides a board model for the Arm Corstone-310 board with [Cortex-M85](#).

Limitations

- Can correctly execute only TF-M versions v2.1.0 and earlier. Fixes are planned with the next releases to enable latest TF-M 2.1.1 versions.

- Corresponding Ethos-U55/65/85 NPU is enabled in configuration with 256 MACs
